

Good evening.

This is (call sign, name), in (location).

This evening I will be your Net Control for the Cascade Amateur Radio Enthusiasts, also known as C.A.R.E. - GMRS Session. This net meets every MONDAY evening at 6:30 p.m. before the Regular Amateur Radio Repeater and Simplex Sessions on GMRS CH19 or a frequency of 462.6500 MHz simplex with 50 watt maximum radio output. We invite both members AND visitors to join us for this simplex net.

CARE members first. New visitors will be invited to check in after the roll call.

This is a controlled net. However, anyone with EMERGENCY TRAFFIC may break in at any time.

***Are there any announcements? (Break and wait for any traffic.)***

The purpose of this net is to check equipment operation and provide training for emergency communication, both as a net participant and as Net Controller. Please stay for the entire net unless excused by an early out. Information about the Cascade Amateur Radio Enthusiasts can be found at [carehamradio.com](http://carehamradio.com) and this net script can be downloaded from the members page there. Please check the Club website often as news and updates are posted there as well as minutes of meetings. To check in, please clearly state your call sign and location. I will ask for late or missed at the end of each section.

Please NOTE this is a Simplex Net if I call someone and I do not acknowledge them please break in with the word "RELAY" and communicate that you heard the station called so we can get them in the log.

This is (call sign), Net Control for the weekly GMRS CARE Net starting the roll call now. Are there any members that need an early out?

#### ROLL CALL - MEMBERS

Any missed stations please come now

Any Visiting or NEW stations

Any Announcements

Last Call for Check-ins

Till Next week Stay SAFE !!!! - GOD Bless the Republic- This is (Callsign)
